DILAS Celebrates 15 Year Anniversary

Mainz, Germany, October 5, 2009 – DILAS, a leading manufacturer of high-power diode laser components and systems announced that it is celebrating its 15 years of providing the best diode laser solutions and customer service on a global scale.

Started in 1994 with nine people, the company now exceeds over 200 employees in manufacturing and research/development facilities in Europe, North American and Asia.

Since its inception in Mainz, Germany, DILAS has maintained its focus on delivering innovative diode laser technology solutions to maximize its customer's competitive capabilities. As a leader within the photonics industry, DILAS' solid growth is comprised of a customer base within the medical, diode-pumped solid-state laser, defense, graphic arts and materials processing markets.

"Celebrating 15 years of successful service is a statement of the dedication of our employees and their commitment to providing the best customer service and support," said Dr. Marcel Marchiano President & CEO. "Our customers can trust that DILAS will deliver high-quality products for the solutions they need."

About DILAS

DILAS, the diode laser company, is focused on delivering the most innovative technologies and advanced product solutions in the industry. Founded in 1994 in Mainz, Germany, with operations in North America and Asia, DILAS designs, develops and manufactures quality high-power, high-brightness semiconductor laser components, modules and systems, including fiber-coupled products for worldwide distribution. For more information about DILAS, including product updates, visit the company's website at www.dilas.com.
